

Labor logistics

Labor logistics must be noted on any move that involves labor, additional equipment or additional services to complete the job.

It is important to know how a unit is being loaded so be sure to ask. If an additional truck is being used to load a unit, ask how the unit will be offloaded. This is vital for our billing process.

Labor logistics should be short, detailed and easy to understand as outlined below:

Vendors Name – Spoke to - quote

-Equipment 1 – purpose

-Equipment 2 – purpose

-labor/service description

Examples:

Don't Get Wrecked Towing – Moe - \$850

-HD wrecker – winch out/reposition unit

-Landoll – haul unit

Don't Get Wrecked Towing – Curly - \$1100

-HD wrecker – load and offload

-Lowboy – haul unit

-Strapping to secure unit

Don't Get Wrecked Towing – Larry - \$1100

-Swap rear tires out

-HD wrecker – tow

- Swap rear tires back out
