

Central Dispatch Inbound

Central Dispatch is a load board we utilize for long-distance transport. Central dispatch carriers are the only vendors we offer check payment to (all other vendors are paid by credit card).

If a Central Dispatch carrier calls in regarding a posted job:

- Identify the move – caller should have the move # (ref to as load #)
- Gather the below info
 - o Company name
 - o Caller's name, callback # & email address
 - o Equipment they would be using for transport
 - o Quote
 - o Pick up date/timeframe – if outside of deadline/hours for pick up, see if they can adjust to fit deadline/hours of pick up.
 - o Delivery date/timeframe – if outside of deadline/hours for delivery, see if they can adjust to fit deadline/hours of delivery.
 - o Confirmation they have an active W-9 & insurance and will email it to ers@transitpros.com if approved for dispatch.
- Note the above on move and email through move notes to leads@transitpros.com
- Advise caller you are submitting the information and we will be in touch if they are approved for dispatch.
