 - Address / city / state / zip
 - Contact information
 - Year / Make / Model
 - VIN
 - Damage details (if applicable)
 - Photos if available
 - Advance Charge amount (if applicable)
 - Insured contact information (if applicable)
 - Name
 - Phone Number
 - Date of loss

Active Client List

- **Fleet/Auction/Transportation Clients**
 - **FLD (Fleet Lease Disposal)**
 - Email: fld@transitpros.com
 - Approval Process: All requests are QUOTE only.
 - Contacts:
 - Timothy.peach@fldinc.com
 - Carla.wiwczaroski@fldinc.com
 - Linda.Hayes@fldinc.com
 - PO – FLD Stock #
 - **On intake, enter “Quote-” before stock # (no spaces). Remove “Quote-” leaving just the stock # after quote approval.**
 - Client will provide PUL POC AFTER quote approval. If new details become available that result in quote change, re-quote client.
 - FLD Pick-up Authorization form – will be provided by FLD after quote approval. Must upload to Misc and sent to vendor with dispatch PPW to be filled out.
 - FLD BOL – upload and send to vendor with dispatch PPW to be filled out. *In shared drive.*

- DRIVE SHAFT REINSTALL – As of 3/13/25, we are no longer reinstalling drive shafts for FLD. Therefore, the following tow procedures must take place:
 - IAA deliveries – If vendor removes driveshaft, they will need to leave driveshaft with unit at IAA. Do not reinstall.
 - All other delivery location – DO NOT remove the driveshaft. Units will need to be towed from the rear or hauled.
- **Quality Leasing**
 - Email: Specialty@transitpros.com (Currently emails Layla/Joey direct, Layla is updating client on where to send emails)

 - Email: specialty@transitpros.com
 - Approval Process: No client quote approval needed
 - Contacts:
 - Matthew Croisant matthew.croisant@farmersinsurance.com
 - Jenny Renfro jenny.renfro@farmersinsurance.com
 - PO: Claim #

SOP Outline:

- **One Unit per move at dispatch** – Grouping like moves together for quotes is acceptable ONLY if the client, unit, PUL & delivery location are the same. Before dispatching (and after quote approval if applicable), a move must be created for each unit. DO NOT use the secondary asset fields to group 2 units on one move. The client quote (if applicable) must reflect the client quote of each individual unit.
- **LOT #s** – If unit is being delivered to an auction, client may provide a “Lot #”. Include the Lot # in step 2 Special Instructions – Vendor will need the lot # to check in unit at delivery location.
- **Client Communication:**
 - TP will communicate with the client throughout the dispatch process. Communication is key with our clients. Update client via email or phone at all stages below. Notate ALL communications.
 - Receipt of the service request
 - Scheduled
 - Picked up
 - Delivered
 - TP will communicate any delays or issues throughout dispatch process

– **Quotes:**

- Each move must be notated with..
 - Original quote (OQ \$__) to reflect negotiations.
 - All quotes must be all inclusive including taxes, tolls, and credit card fees.
 - Labor intensive quotes must include logistics (equipment being utilized)
- Contracted rates (Copart) - When we call vendors contracted on the Copart side, we need to get them to quote our moves at their contracted rate or lower.
- TPG – Ideally, we need our quotes to be as close to the TPG as possible. Most of our moves are not salvage units and we should be getting lower prices than the salvage moves.
- If the PUL is a towing company, TP must ALWAYS push for a quote + request grace period for storage fees

– **Confirmations:**

- Scheduled:
 - Required to call on ALL moves in scheduled status daily.
 - If vendor states unit is picked up, PUL verification required. Request vendor to complete EP – pickup confirmation if not already done.
- Picked Up:
 - Required to call on ALL moves in picked up status daily.
 - If vendor states unit is delivered, DEL verification required. Request vendor to complete EP – delivery if not already done.
- Trust but verify – always verify PU and DEL by calling pickup / delivery locations. Do not rely on vendors word for it or EP.

– **Billing Notes:**

- Enter billing note for the following!
 - Service delays
 - High vendor quotes
 - Connecting moves

– **Advance Charges:**

- Payment Methods Utilized – Credit Card
 - If PUL will NOT accept cc, find out accepted MOP and update client. Ask client how they would like to proceed (ideally client will clear charges due)
 - If PUL WILL accept cc, confirm if they will accept the cc by email or verbally over the phone (virtual cc) or only in person.
 - If in person cc payment is required and client has approved TP to clear AC, we must coordinate with vendor to pay the charges in person and TP will reimburse them.
- Approval – Charges must be approved by the adjuster.
 - Request advanced charges invoice from PUL – to include all taxes, fees and cc fee if applicable.
 - Email client invoice copy when seeking approval.
